PROBLEM: Protecting hands during flange work
SOLUTION: BLOCK BOSS™ flange hand safety

BLOCK BOSS™ flange safety

Flange spreading for blinds, orifice plates and gasket jobs can be hazardous. BLOCK BOSS™ protects hands while performing flange work. It secures the flanges in the spread position until work is complete. It cannot be accidentally removed. The flange bolt is secured through both flange bolt holes and through the BLOCK BOSS™ preventing accidental flange closure and subsequent injuries. 3 sets cover all flange sizes from 1/2" to 24" in ANSI flange ratings from 150 lb to 2500 lb. The spring loaded design prevents it from contacting flange faces .

MODEL	DESCRIPTION	RATINGS	SIZE
BBK-150-300	BLOCK BOSS KIT	150 lb & 300 lb	1/2" to 24"
